INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Magna Water District
Magna, Utah

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Magna Water District (the District) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller general of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Magna Water District, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and certain disclosures relating to pensions as listed in the table of contents as noted in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the basic financial statements that collectively comprise the District's basic financial statements. The schedule of revenues, expenses, and changes in net position and the schedule of revenues, expenses, and changes in net position – compared with budget, listed in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The schedule of revenues, expenses, and changes in net position and the schedule of revenues, expenses, and changes in net position – compared with budget are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of revenues, expenses, and changes in net position and the schedule of revenues, expenses, and changes in net position – compared with budget are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2016 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Keddington & Christensen, LLC

Keddington & Christensen, LLC
Salt Lake City, Utah
October 18, 2016

As management of Magna Water District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended December 31, 2015.

Financial Highlights

The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$60,703,513 (total net position). Of this amount, \$12,401,556 (unrestricted net position) may be used to meet the District's ongoing obligations to citizens and creditors.

The District's total net position increased by \$3,844,414 in 2015. This is an increase from 2014 to 2015 in the amount of \$2,845,191. This increase is not entirely an increase of cash but is due from additional and new growth in the District. After having a couple of low growing years in the past, the year 2015 was a growing year for the District. The District received almost \$1,100,330 additional impact fees than in 2014. Also the District has been working on several developments that now have been approved by the District and the District has assumed responsibilities of the water and sewer and secondary pipelines that were placed in service by the developers. The value of those pipelines resulted in an increase of \$916,623 above 2014. The District's revenue continues to exceed total expenses by a significant margin.

At the end of the current fiscal year, unrestricted net position was \$12,401,556 or 144% of total expenses.

The District's total long term debt decreased by \$1,153,852 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of revenues and expenses and changes in net position presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The District maintains one type of proprietary fund, an enterprise fund. A fund is a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The district, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the District's budget and actual amounts.

Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$60,703,513 at the close of the most recent fiscal year.

**MAGNA WATER DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS (Continued)**

By far the largest portion of the District's net position (64%) reflects its investment in capital assets (e.g., land, buildings, pipelines, machinery, and equipment); net of any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

	<u>2015</u>	<u>2014</u>
Current and other assets	\$ 26,233,146	\$ 25,842,654
Capital assets	<u>53,019,487</u>	<u>50,671,277</u>
Total Assets	<u>79,252,633</u>	<u>76,513,931</u>
Deferred outflow of resources	<u>389,168</u>	<u>30,202</u>
Long-term liabilities outstanding	17,070,721	18,224,573
Other liabilities	<u>1,778,379</u>	<u>1,240,629</u>
Total Liabilities	<u>18,849,100</u>	<u>19,465,202</u>
Deferred inflow of resources	<u>89,188</u>	<u>150,617</u>
Net investment in capital assets	39,081,024	33,127,886
Restricted	9,220,933	7,852,952
Unrestricted	<u>12,401,556</u>	<u>15,947,476</u>
Total Net Position	<u>\$ 60,703,513</u>	<u>\$ 56,928,314</u>

The restricted portion of the District's net position (\$9,220,933) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$12,401,556) may be used to meet the District's ongoing obligations to citizens and creditors.

There was an increase of \$1,367,981 in restricted net position reported by the District. This resulted primarily from new development paying required impact fees.

The District's net position increased by \$3,844,414 during the current fiscal year, as the District's operating and non-operating revenues exceeded expenses for the year. As noted earlier, factors contributing to the increase in net position include impact fees collected by new subdivisions, contributed water and sewer lines by contractors, contributed secondary water shares, and a decrease in operating expenses.

**MAGNA WATER DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS (Continued)**

	2015	2014
Operating revenues	\$ 5,868,774	\$ 5,537,552
Non-operating revenues	5,616,932	4,200,909
Total Revenues	11,485,706	9,738,461
Depreciation and amortization expense	2,929,705	2,884,414
Other operating expenses	5,380,038	5,532,105
Non-operating expenses	287,192	412,940
Total Expenses	8,596,935	8,829,459
Income before capital contributions	2,888,771	909,002
Capital contributions	955,643	39,020
Change in Net Position	3,844,414	948,022
Total Net Position, Beginning of Year	56,859,099	55,911,077
Total Net Position, End of Year	\$ 60,703,513	\$ 56,859,099

Major sources of revenue for the District consist of charges for services, property taxes, impact fees collected from new subdivisions, and income from industry. These sources account for approximately 98% of the Districts revenues before capital contributions.

Total operating revenues increased by approximately 6% from the prior year, while total expenses decreased by approximately 2.8%, leading to an increase in income before capital contributions in 2015 as compared to the previous year. The capital contributions significantly increased in 2015 as compared to 2014 due to an increase of development within the District. The increase in operating revenue is primarily due to adopted rate increases. The decrease in expenses is primarily due to decreases in salaries and benefits, depreciation, and various other miscellaneous operational expenses.

Capital Asset and Debt Administration

Capital Assets. The District's investment in capital assets as of December 31, 2015 amounts to \$53,019,487 (net of accumulated depreciation). This investment in capital assets includes land, structures and improvements, wells and springs, supply and transmission mains for water distribution and sewer collection, construction in progress, plant and sewer systems, and machinery and equipment. The total increase in the District's investment in capital assets for the current fiscal year was approximately 5%.

**MAGNA WATER DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS (Continued)**

	<u>2015</u>	<u>2014</u>
Land	\$ 1,788,730	\$ 1,538,507

Less accumulated depreciation	<u>(39,586,053)</u>	<u>(36,855,068)</u>
Total Capital Assets, net of depreciation	<u>\$ 53,019,487</u>	<u>\$ 50,671,277</u>

Additional information on the District's capital assets can be found in Note 3 to the financial statements.

Long-term debt. At the end of the current fiscal year, the District had total long-term debt outstanding of \$17,070,721. Of this amount, \$6,110,000 is outstanding as revenue bond debt, \$639,136 relates to amounts outstanding on a water resource loan, \$8,945,953 is outstanding as general obligation bond debt, and \$241,641 relates to amounts outstanding on capital leases. Pursuant to a new GASB Ruling, the District also now recognizes a long term debt for OPEB Obligations in the amount of \$792,609, and a debt for pension liability in the amount of \$341,382.

	<u>2015</u>	<u>2014</u>
General obligation bonds	\$ 8,945,953	\$ 10,284,950
Revenue bonds	6,110,000	6,373,000
Water resource loan	639,136	685,679
Capital lease	241,641	199,762
Net OPEB obligations	792,609	635,046
Net Pension Liability	<u>341,382</u>	<u>46,136</u>
Total	<u>\$ 17,070,721</u>	<u>\$ 18,224,573</u>

Additional information of the District's long-term debt can be found in Note 4 to the financial statements.

Reserve Funds

The District held \$4,126,115 in reserve and replacement funds at the end of the current fiscal year, which are mandated by the District's revenue bonds.

Reserve and Fee Structure

In 2012, the District began to update its Impact Fee Facilities Plan (the Plan) to evaluate the capital facility and revenue needs of the water, sewer, and secondary systems in order to continue to service the District's growth. The Plan looks at the condition of the District through the projected year of 2030. The District adopted the Impact Fee Facility Plan, an Impact Fee Analysis, and an Impact Fee Enactment in September of 2013. The enactment adopted increased the impact fee for the water, sewer, and secondary water system. The District evaluated the revenue requirements of the District and subsequently adopted a rate increase effective January 1, 2015. The rates are planned to increase in small increments through 2019.

MAGNA WATER DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

Planned Future Capital Improvements

The District is still in the process of seeking funding to extend the secondary system, in addition to that the District established a subsidy fee that is charged to each culinary water customer that will be collected and set aside for the secondary water system expansion. In 2014 the subsidy fee began at the rate of \$0.50 per month and will increase to \$3.00 per month by the beginning of 2019. The District is just about completed construction on a new general office building and anticipated to be moving locations in November of 2016. The District is also planning for a new secondary water reservoir site for the future, but has not committed any funds at this time to start any construction on that reservoir. The District has also been extensively engaged in studying the future needs of the wastewater treatment plant and future needs and modifications. Federal mandates will be imposed that will force the District to modify the wastewater treatment plant. The District is now in the process of having a special bond election in November of 2016 to hopefully have the residents approve the bonding so the modifications to the wastewater treatment plant can be paid with the smartest alternative to its customers. As always, the Board of Trustees and Management Team and Staff are working hard to satisfy our customers and to improve our system. The District follows a master plan that is reviewed each year.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Magna Water District, Attention: District Manager, PO Box 303, Magna, Utah 84044.

MAGNA WATER DISTRICT NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF ACCOUNTING POLICIES

Reporting Entity

Magna Water District, Utah (the District) is a local district governed by an elected three member board. Generally accepted accounting principles require that these financial statements present the government and its component units, entities for the government is considered to be financially accountable. The District was created July 7, 1949 by a resolution of the Board of County Commissioners of Salt Lake County. Salt Lake County has no oversight responsibility over the District and the District is not reported as a component unit of Salt Lake County. The District has no blended or discretely presented component units.

Measurement Focus and Basis of Accounting

The District is an enterprise fund, which is reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District are charges to customers for water and sewer services. Operating expenses include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgetary Procedures and Budgetary Accounting

Budgetary procedures for the District have been established by the Uniform Fiscal Procedures Act adopted by the State of Utah, which requires the legal adoption of a budget for all funds. Furthermore, in accordance with state law, all appropriations lapse at the end of the budget year; accordingly, no encumbrances are recorded. The basis of accounting to the budget is the same basis as the financial statements.

A formal budget has been adopted and used as a control device during the year ended December 31, 2015.

The District follows the following procedures in its budgetary process:

1. During October or November of each year the District adopts a tentative annual budget for the upcoming calendar year.
2. The tentative budget is a public record and is available for the public inspection.
3. At least ten (10) days prior to the second Thursday in December of each year, the District publishes a notice of public hearing in an issue of a newspaper of general circulation for the purpose of adopting a budget.
4. On the second Thursday in December, the budget is formally adopted after consideration of public comment.

No budget is required to be presented with these financial statements. State law allows the District to amend the proprietary fund budget without public hearing or public notice.

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 1 SUMMARY OF ACCOUNTING POLICIES (Continued)

Statement of Cash Flows

The District considers all highly liquid investments with a maturity of three months or less when purchased to be “cash equivalents”. All restricted and non-restricted cash amounts are considered to be cash and cash equivalents for statement of cash flow purposes.

Allowance for Doubtful Accounts

Accounts receivable are stated net of allowance for doubtful accounts of \$2,975. The allowance for doubtful accounts is based on the District’s prior collection experience.

Inventories

The District maintains inventories of pipe, repair parts, hydrants, and water meters. Inventories are stated at the lower of cost or market using the first in/first out (FIFO) method.

Property and Equipment

Property and equipment include land, buildings and improvements, water and sewer systems, water shares, and machinery and equipment. Property and equipment are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects as constructed. Interest incurred during the construction phase of capital assets is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period. No interest was capitalized during the current year.

Property, plant, and equipment of the District is depreciated using the straight-line method over the following useful lives:

Water utility plant	20 to 50 years
Sewer utility plant	30 to 50 years
Buildings and structures	30 to 40 years
Equipment	3 to 15 years
Furniture and fixtures	5 to 10 years

Employee Benefits and Compensated Absences

The District provides pension, medical, dental, vision, and life insurance to its employees, most of which are negotiated by contract with the Teamsters Union. Employees are also provided paid holidays and vacation pay, which does not accumulate from year to year, but a maximum of 80 hours can be cashed out at the end of each year. Sick leave accumulates at a rate of one-half day per month, can be carried over from year to year without limitation, and is paid out in full upon termination of employment to the extent that an employee is not terminated for cause.

Property Tax Revenues

Property taxes are assessed and become a lien against the property on January 1st. Property taxes become delinquent after November 30th. The District’s tax rate for 2015 was 0.002597 which is comprised of 0.000885 for operations and maintenance, and 0.001712 for debt service. The statutory maximum set by the state for operations and maintenance is 0.000885. There is no statutory maximum for the reduction of general obligation bonds.

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 1 SUMMARY OF ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the District to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 CASH AND CASH EQUIVALENTS

Following are the components of the District’s cash and investments at December 31, 2015:

Cash and cash equivalents	\$	13,456,692
Restricted cash and cash equivalents		11,219,202
	\$	24,675,894

The District follows the requirements of the Utah Money Management Act (Utah Code Annotated 1953, Section 51, Chapter 7) (the Act) in handling its depository and temporary investment transactions. This law requires the deposit of District funds in a “qualified depository.” The Act defined a “qualified depository” as any financial institution whose deposits are insured by an agency of the Federal Government and which has been certified by the Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Utah Money Management Council. However, the District does not have a separate deposit and investment policy that addresses the specific types of deposit and investment risk to which the District is exposed.

Custodial credit risk – deposits is the risk that in event of a bank failure, the District’s deposits may not be returned to it. At December 31, 2015, the carrying amount of the District’s deposits was \$4,149,256, and the bank balance was \$2,701,383. Deposits are not collateralized nor are they required to be by state statute. However, the State Commissioner of Financial Institutions monitors financial institutions and establishes limits for deposits of public money at individual financial institutions, and the District follows these recommendations. Of the amounts held in deposit at December 31, 2015, \$2,201,383 was uninsured and uncollateralized.

Custodial credit risk – investments is the risk that in the event of the failure of a counterparty, the District will not be able to recover the value of its investments that are in the possession of an outside party. The District’s investment in the Utah Public Treasurer’s Investment Fund (PTIF) has no custodial credit risk.

Interest Rate Risk is the risk that changes in the interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District invests in the PTIF and by adhering to the Money Management Act. The Act requires that the remaining term to maturity may not exceed the period of availability of the funds to be invested.

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District’s policy for limiting the credit risks of investments is to comply with the Money Management Act. The Act requires investment transactions to be conducted only through qualified depositories, certified dealers, or directly with issuers of the investment securities. Permitted investments include deposits of qualified depositories; repurchase agreements; commercial paper that is classified as “first tier” by two nationally recognized statistical rating organizations, one of which must be Moody’s Investment Services or Standard and Poors; banker acceptance obligations of the U.S. Treasury and U.S. government sponsored enterprises; bonds and notes of political subdivisions of the State of Utah; fixed rate corporate obligations and

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 2 CASH AND CASH EQUIVALENTS (Continued)

variable rate securities rated “A” or higher by two nationally recognized statistical rating organizations as defined by the Act.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of a government’s investment in a single issuer. The District’s investment in the PTIF has no concentration of credit risk.

The District invests in the Utah Public Treasurer’s Investment Pool (PTIF) which is a voluntary external Local Governmental Investment Pool managed by the Utah State Treasurer’s Office and is audited by the Utah State Auditor. No separate report as an external investment pool has been issued for the PTIF. The PTIF is not registered with the SEC as an investment company and is not rated. The PTIF is authorized and regulated by the Utah Money Management Act, (Utah Code Title 51, Chapter 7). The PTIF invests in high-grade securities which are delivered to the custody of the Utah State Treasurer, assuring a perfected interest in the securities, and therefore, there is very little credit risk except in the most unusual and unforeseen circumstances. The maximum weighted average life of the portfolio does not exceed 90 days. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gains or losses on investments. The PTIF operates and reports to participants on an amortized costs basis. The income, gains, and losses, net of administration fees, of the PTIF are allocated to participants on the ratio of the participants’ share to the total funds in the PTIF based on the participants’ average daily balance. The PTIF allocates income and issues statements on a monthly basis. Twice a year, at June 30 and December 31, which are the accounting periods for public entities, the investments are valued at fair value and participants are informed of the fair value valuation factor. Additional information is available from the Utah State Treasurer’s Office.

NOTE 4 LONG TERM OBLIGATIONS

The following is a summary of long-term debt obligations of the District for the year ended December 31, 2015:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Bonds payable					
General obligation bonds	\$ 10,030,000	\$ -	\$ (1,322,000)	\$ 8,708,000	\$ 1,342,000
Premiums	254,950	-	(16,997)	237,953	-
Revenue bonds	<u>6,373,000</u>	<u>-</u>	<u>(263,000)</u>	<u>6,110,000</u>	<u>268,000</u>
Total bonds payable	16,657,950	-	(1,601,997)	15,055,953	1,610,000
Water resource loan	685,679	-	(46,543)	639,136	47,009
Capital leases	<u>199,762</u>	<u>296,014</u>	<u>(254,135)</u>	<u>241,641</u>	<u>48,409</u>
Total Long-Term Liabilities	<u>\$ 17,543,391</u>	<u>\$ 296,014</u>	<u>\$ (1,902,675)</u>	<u>\$ 15,936,730</u>	<u>\$ 1,705,418</u>

General Obligation Bonds

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. The original amount of general obligation bonds that were issued in prior years with amounts still outstanding as of December 31, 2015 was \$10,395,000.

General Obligation bonds are direct obligation and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follow:

Purpose	Issue Date	Original Borrowing	Interest Rates	Final Maturity	Amount
Refunding	2013	8,245,000	2.00 - 3.00%	2029	\$ 7,365,000
Water treatment facilities	2014	2,150,000	.5 to 1.13%	2017	<u>1,343,000</u>
					<u>\$ 8,708,000</u>

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending December 31,	Principal	Interest	Total
2016	\$ 1,342,000	\$ 183,961	\$ 1,525,961
2017	1,061,000	167,284	1,228,284
2018	550,000	153,463	703,463
2019	555,000	142,413	697,413
2020	570,000	131,163	701,163
2021-2025	3,045,000	447,106	3,492,106
2026-2029	<u>1,585,000</u>	<u>79,725</u>	<u>1,664,725</u>
Total	<u>\$ 8,708,000</u>	<u>\$ 1,305,115</u>	<u>\$ 10,013,115</u>

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 4 LONG TERM OBLIGATIONS (Continued)

Covenant Requirements

Both the 2013 and the 2014 bond agreements require the District to levy all taxable property, in addition to all other taxes, a direct annual tax sufficient to pay the principal and interest on these bonds.

Revenue Bonds

The District also issues bonds where the District pledges income derived from the acquired or constructed assets to pay debt service. The original amount of revenue bonds issued in prior years with amounts still outstanding as of December 31, 2015 was \$8,100,000. Revenue bonds outstanding at year end are as follows:

Purpose	Issue Date	Original Borrowing	Interest Rates	Final Maturity	Amount
Water facilities	1997	1,000,000	2.93%	2018	\$ 189,000
Water treatment plant	2007	7,100,000	1.50%	2039	5,921,000
					<u>\$ 6,110,000</u>

Annual debt service requirements to maturity for revenue bonds are as follows:

Year Ending December 31,	Principal	Interest	Total
2016	\$ 268,000	\$ 94,353	\$ 362,353
2017	273,000	89,460	362,460
2018	278,000	84,465	362,465
2019	216,000	79,365	295,365
2020	219,000	76,125	295,125
2021-2025	1,148,000	330,255	1,478,255
2026-2030	1,237,000	241,545	1,478,545
2031-2035	1,331,000	145,965	1,476,965
2036-2039	1,140,000	43,050	1,183,050
Total	<u>\$ 6,110,000</u>	<u>\$ 1,184,583</u>	<u>\$ 7,294,583</u>

Reserve requirements

The District is required to establish reserve and replacement accounts to provide for proper service of the 1997 Water Revenue Bonds and replacement of the treatment District as considered necessary. Following is a description of these reserve accounts.

The District is required to make monthly contributions to a Debt Service Reserve Account for the 1997A Water Revenue Bond, to be used to pay principal falling due on the 1997A Bonds at any time when there are not sufficient funds to pay the same. Annual contributions to this Reserve Account are required until the account balance reaches \$67,218. As of December 31, 2015, the required reserve fund balance was fully funded.

In like manner, the District is also required to make an annual contribution to a Replacement Account. The annual contribution is 5% of the annual water operating budget, including debt service and depreciation, and must continue until the 1997A Bond is redeemed. However, the District is allowed to use and has in past years used funds from the replacement account towards various approved water related capital improvements upon providing written notice to the Division of Drinking Water Board. As of December 31, 2015, required reserve fund balances were fully funded.

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 4 LONG TERM OBLIGATIONS (Continued)

The District is also required to set aside funds sufficient to cover debt service principal and interest payments for the succeeding year. As of December 31, 2015, this required reserve fund balance was fully funded.

The District is required to establish reserve accounts to provide for proper service of the 2007 Water Revenue Bonds. Following is a description of these reserve accounts.

The District is required to make monthly contributions to a Reserve Account to be used to pay principal falling due on the 2007 Bonds at any time when there are not sufficient funds to pay the same. Required monthly contributions to this Reserve Account are \$4,935 until the account balance reaches \$296,105. As of December 31, 2015 required reserve fund balances were fully funded.

The District is also required to set aside funds sufficient to cover debt service principal and interest payments for the succeeding year. As of December 31, 2015, required reserve fund balances were fully funded.

Required reserve fund balances as of December 31, 2015 are as follows:

	1997 Series		2007 Series	
	Amount Required	Amount on Deposit	Amount Required	Amount on Deposit
Reserve accounts	\$ 67,218	\$ 67,291	\$ 296,105	\$ 296,105
Replacement accounts	3,400,186	3,400,186	-	-
Debt service accounts	66,538	66,571	295,815	295,962
Total reserve requirements	<u>\$ 3,533,942</u>	<u>\$ 3,534,048</u>	<u>\$ 591,920</u>	<u>\$ 592,067</u>

Water Resource Loan

The District has entered into an agreement with the State of Utah Division of Water Resources (State) for the construction of a secondary water system. The State agreed to advance the District \$1,175,000 at an annual interest rate of 1.00% to fund construction on the project.

Annual debt service requirements to maturity for the Water Resource loan are as follows:

Year Ending December 31,	Principal	Interest	Total
2016	\$ 47,009	\$ 6,391	\$ 53,400
2017	47,479	5,921	53,400
2018	47,954	5,446	53,400
2019	48,433	4,967	53,400
2020	48,917	4,483	53,400
2021-2025	252,023	14,977	267,000
2026-2028	147,321	2,857	150,178
Total	<u>\$ 639,136</u>	<u>\$ 45,042</u>	<u>\$ 684,178</u>

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 4 LONG TERM OBLIGATIONS (Continued)

Capital Leases

The District has entered into lease agreements as lessee for financing the acquisition of various vehicles. The leases carry interest rate of 2.3% and maturity dates in 2019. During 2015, the District returned the vehicles from all previous capital leases and then subsequently entered into two new capital lease agreements. These new lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Total depreciation expense for the leased vehicles was \$60,915 for the year ended December 31, 2015, and is included in depreciation and amortization on the statement of revenues, expenses, and changes in net position. Interest expense related to the leases was \$4,899 for the year ended December 31, 2015.

The assets acquired through capital leases are as follows:

Asset:		
	Machinery and equipment	\$ 296,014
	Less: Accumulated depreciation	<u>26,139</u>
	Total	<u>\$ 322,153</u>

The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2015, were as follows:

	Year Ending December 31,	Principal
	2016	\$ 54,375
	2017	67,616
	2018	67,616
	2019	<u>67,616</u>
	Total minimum capital lease payments	257,223
	Less: amounts representing interest	<u>(15,582)</u>
	Present value of net minimum capital lease payments	241,641
	Less: current portion	<u>(48,409)</u>
	Long-term capital lease obligations	<u>\$ 193,232</u>

NOTE 5 UNION EMPLOYEES PENSION PLAN

Most full-time District employees are members of the Western Conference Teamsters Pension Plan (the Plan). The Plan is a cost-sharing multiple-employer defined benefit pension plan. The Plan is administered by the Board of Trustees of the Plan, who have authority to amend the benefits provided by the Plan. The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. As of December 31, 2015 there were 20 employees participating in the Plan. Participants in the Plan normally must be vested over a five-year period prior to receiving benefits.

The District makes pension contributions to the Plan, on behalf of covered employees at the rate of \$4.45 per hour from January 1, 2015 through December 31, 2015. The District will make pension contributions to the Plan, on behalf of covered employees at the rate of \$ 4.60 effective January 1, 2016 and 2017 respectively. The contribution rates of the district are determined pursuant to a collective-bargaining agreement, covering the period June 1, 2015 through May 31, 2019. The Plan has no minimum contribution requirements. If the District withdraws from the Plan, they will

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 5 UNION EMPLOYEES PENSION PLAN (Continued)

be liable to the Plan in the amount determined under the Plan's Agreement & Declaration of Trust section 10 which can be found at <http://www.wctpension.org/forms-documents-webcasts/plan-documents>.

The WCTPP issues a publicly available financial report which can be obtained at <http://www.wetpension.ort/forms-documents-webcasts/plan-documents>. Additional information regarding the Plan may be obtained by accessing the aforementioned audited financial report.

District contributions to the Plan were \$201,929, \$186,437, and \$185,462, for 2015, 2014, and 2013, respectively. The District did not have any amount due the Plan as of December 31, 2015.

NOTE 6 NON-UNION EMPLOYEES PENSION PLAN

Plan Description. The Magna Water District Defined Benefit Plan (the Plan) is a single-employer defined benefit pension plan. The Plan's provisions were adopted by a resolution of the Water District's Board of Trustees, which appoints those who serve as trustees of the Plan. Any amendments to the plan are adopted by a resolution of the Water District's Board of Trustees.

Benefits provided. The Plan covers all eligible employees and provides retirement benefits to plan members and their beneficiaries. Eligible employees are the executive employees who do not qualify to participate in the Union Employees Pension Plan described in the previous note.

Years of service <u>required</u>	Age eligibility <u>for benefit</u>	Monthly Benefit <u>amount per year</u>
5 years	Must be age 55 or older	\$204.38 per year of credited service

Participation. As of December 31, 2015, there were 4 active participants, -0- inactive participants and -0- retirees and beneficiaries.

Contributions. Through December 31, 2015 contributions to the Plan were recommended by the annual actuarial report and are approved by the Water District's Board of Trustees. As of January 1, 2014 a contribution bases on a fixed dollar amount was approved by the Water District's Board of Trustees. The dollar amount will be reviewed by the Board of Trustees annually as updated actuarial valuation reports become available. the Board of Trustees approved a contribution of \$119,526 for 2014, \$257,245 for 2015 and \$94,015 from the 01/01/2016 plan funding valuation, which was recorded as an accrued liability as of December 31, 2015. The actual amount contributed by the employer during the 2014 and 2015 fiscal years was \$119,526 and \$257,245 respectively.

Reporting. The Plan issues a publicly available financial report that includes statements and required supplementary information of that plan. This report may be requested

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 6 NON-UNION EMPLOYEES PENSION PLAN (Continued)

Net Pension Liability. At December 31, 2015, the District reported a net pension liability of \$341,382. The net pension liability was measured as of December 31, 2015, and was determined by an actuarial valuation as of January 1, 2015 and rolled-forward using generally accepted actuarial procedures.

Deferred outflows of resources and deferred inflows of resources. At December 31, 2015, the District reported deferred outflows of resources and deferred inflows related to pensions from the following sources:

	Deferred inflows of resources	Deferred outflows of resources
Differences between expected and actual experience	\$ 89,188	
Changes of Assumptions		\$ 368,595
Net difference between projected and actual earnings		\$ 20,574
Contributions made subsequent to measurement date		
Total	\$ 89,188	\$ 389,169

Pension expense. For the year ended December 31, 2015, the District recognized pension expense of \$62,881:

Year ended December 31	Deferred outflows (inflows of resources)
2016	62,881
2017	62,881
2018	62,881
2019	62,881
Thereafter	-

Actuarial assumptions. The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	0%
Salary increases	0%
Investment rate of return	5%
Mortality	1994 Group annuity mortality table using blended rate No pre-retirement mortality was used.

Long-term rate of return. The long-term rate of return is selected by the Plan's Pension Committee after a review of expected inflation and long-term real returns, reflecting volatility and correlation. Best estimates of arithmetic real rates of return for major asset class included in the Plan's target asset allocations as of December 31, 2015 is summarized in the table below:

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 6 NON-UNION EMPLOYEES PENSION PLAN (Continued)

Asset Class	Target Asset Allocation	Real Return Arithmetic Basis	Long-Term Expected Return
Cash & Fixed Income	100%	3.00%	3.00%
Total	100%	inflation Expected arithmetic nominal return	3.00% 2.00% 5.00%

The 5% assumed investment rate of return is comprised of an inflation rate of 2% and a real return of 3%.

Discount rate. The discount rate used to measure the total pension liability was 5%. The projection of cash flows used to determine the discount rate assumed contributions rates as recommended by the District's Pension Committee and approved by the Board of Trustees. Based on the assumptions, the pension plan fiduciary net position was projected to be available to make all projected future benefit payments on current active and inactive participants. Therefore, the Long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following sensitivity analysis assumes rate volatility of plus and minus one percent of the discount rate of 5%.

	1% Decrease 4%	1% Discount Rate 5%	1% increase 6%
Total pension liability	\$ 1,023,969	\$ 955,070	\$ 892,666
Fiduciary net position	\$ 613,688	\$ 613,688	\$ 613,688
Net pension liability	\$ 410,282	\$ 341,382	\$ 278,978

Schedule of funding progress. The following tables show the pension plan's funding progress over the past 7 years.

Year ended	Actuarial determined contribution	Actual employer contribution	% of actual to actuarial contribution	Balance net pension obligation/ prepaid
12/31/2015	\$ 101,980	\$ 257,245	252.25%	\$ 155,265
12/31/2014	\$ 79,336	\$ 119,526	150.66%	\$ 40,190
12/31/2013	\$ 87,908	\$ 91,092	103.62%	\$ 3,184

NOTE 7 UNION EMPLOYEES OTHER POSTEMPLOYMENT BENEFITS

In accordance with the Union contract, the District contributes at the rate of \$111.66 per active employee to the Utah-Idaho Teamsters Security Fund, which in turn provides post-retirement healthcare benefits to all eligible retired employees. Contributions to the fund amounted to \$26,798 for 2015.

NOTE 8 NON-UNION EMPLOYEES OTHER POSTEMPLOYMENT BENEFITS

Plan Description. The District administers a single-employer defined benefit healthcare plan (the “OPEB Plan”). The plan provides lifetime healthcare insurance for eligible retirees and their spouses through the District’s group health insurance plan, which covers both active and retired members. It also provides life and long-term care insurance for eligible retirees through age 75. Benefit provisions are established by the Board of Trustees and are defined in the District’s Administrative Rules and Regulations. The OPEB Plan does not issue a publicly available financial report.

Funding Policy. The District contributes 100 percent of the cost of current-year premiums for eligible retired plan members and their spouses. For fiscal year 2015, the District contributed \$23,882 to the OPEB Plan. The OPEB Plan is financed on a pay-as-you-go basis. It is the current policy of the District to set aside funds in a separate interest bearing account, which is held by the District, in order to help meet, at least partially, the anticipated obligations of the OPEB Plan. As of December 31, 2015, the District had set aside \$660,486 for the purpose of funding current and future OPEB obligations. However, as these funds are not held in trust and are unrestricted assets of the District, as no external restriction has been placed upon them, they are not considered assets of the OPEB Plan.

Annual OPEB Cost and Net OPEB Obligation. The District’s annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The District has elected to calculate the ARC and related information using the alternative measurement method permitted by GASB Statement 45 for employers in plans with fewer than one hundred total plan members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District’s net OPEB obligation to the OPEB Plan:

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 8 NON-UNION EMPLOYEES OTHER POSTEMPLOYMENT BENEFITS (Continued)

Annual required contribution	\$	202,115
Interest on net pension obligation		9,526
Adjustment to annual required contribution		<u>(30,197)</u>
Annual pension cost		181,444
Contributions made		<u>(23,882)</u>
Increase (decrease) in net pension obligation		157,562
Net pension obligation - beginning of year		<u>635,047</u>
Net pension obligation - end of year	\$	<u>792,609</u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2015 and the two preceding years were as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
12/31/2013	\$ 117,432	6.64%	\$ 480,629
12/31/2014	175,112	11.81%	635,047
12/31/2015	181,444	13.16%	792,609

Funded Status and Funding Progress. As of December 31, 2015, the actuarial accrued liability for benefits was \$1,880,797, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$450,573, and the ratio of the unfunded actuarial liability to the covered payroll was 417.42 percent.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 8 NON-UNION EMPLOYEES OTHER POSTEMPLOYMENT BENEFITS (Continued)

The following simplifying assumptions were made:

Retirement age for active employees – Based on the historical average retirement age for the covered group, active plan members were assumed to retire at ages ranging from 59 to 69, or at the first subsequent year in which the member would qualify for benefits.

Marital Status – Marital status of members at the calculation date was assumed to continue throughout retirement.

Mortality – Life expectancies were based on mortality tables from the National Center for Health Statistics. The 2010 United States Life Tables for Males and Females were used.

Turnover – Non-group-specific age-based turnover data from GASB Statement 45 was used as the basis for assigning active members a probability of remaining employed until the assumed retirement age and for developing an expected future working lifetime assumption for purposes of allocating to periods the present value of total benefits to be paid.

Healthcare cost trend rate – The expected rate of increase in healthcare insurance premiums was based on projections of the Office of the Actuary at the Centers for Medicare & Medicaid Services. A rate of 6.0 percent was used for years 2016 and after.

Health insurance premiums - 2015 health insurance premiums for retirees were used as the basis for calculation of the present value of total benefits to be paid. *Inflation rate* – The expected long-term inflation assumption of 1.5 percent was based on projected changes in the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) in *The 2014 Annual Report of the Board of Trustees of the Federal Old-Age and Survivors Insurance and Federal Disability Insurance Trust Funds* for an intermediate growth scenario.

Payroll growth rate – The expected long-term payroll growth rate was assumed to equal the rate of inflation. Based on the historical and expected returns of the District's short-term investment portfolio, a discount rate of 1.5 percent was used. In addition, a simplified version of the projected unit cost method was used. The unfunded actuarial accrued liability is being amortized as a level dollar amount on an open basis. The remaining amortization period as December 31, 2015, was twenty years.

NOTE 9 DEFINED CONTRIBUTION PLAN

Eligible (non-union) employees of the District may participate in the Magna Water District 401(k) Plan. The 401(k) Plan permits additional matching contributions up to three percent of eligible employee compensation. The District contributed \$13,199, \$10,790 and \$10,617 for the years ended December 31, 2015, 2014, and 2013, respectively.

NOTE 10 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omission; and natural disasters for which the District purchased insurance through commercial policies.

**MAGNA WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)**

NOTE 11 COMMITMENTS

The District has entered into an agreement with the Jordan Valley Water Conservancy District to purchase a minimum of 800 acre feet of water annually. During the year ended December 31, 2015 the District purchased 828 acre feet, at a cost of \$304,712.

The District has construction commitments outstanding at year end for projects which have been awarded and construction or design has begun, but which have not been paid for at year end. Total unpaid construction commitments at December 31, 2015 were approximately \$3,499,000 on an original contract totaling approximately \$6,236,000.

NOTE 12 CONTINGENCIES

Contamination of the groundwater aquifer by perchlorate, a potentially hazardous substance leaked into the groundwater by private industry and the federal government, has been studied and closely monitored by the District and the private industrial firm currently involved. The private firm has been paying a portion of the District's costs of these efforts. The District and the firm entered into an agreement in December 2005 concerning the removal of perchlorate from water produced by three of the District's wells. Under the agreement, the firm agreed to pay for a substantial portion of the new treatment facility constructed by the District and for a portion of the operation and maintenance of that facility. The District issued bonds to finance this treatment facility and during 2015 the District received \$831,150 (fixed service cost) from the private industrial firm in connection with this agreement, which is reflected as other non-operating income on the statement of revenues, expenses, and changes in net position. The District also accrued as receivable approximately \$186,040 in variable service cost from the private industrial firm in connection with its share of operations and maintenance costs of the facility, which has been recorded as an offset to various expense accounts of the District on the statement of revenues, expenses, and changes in net position. The agreement has a provision for a partial refund to the firm if future perchlorate standards merit such a refund. There is also a limited waiver of liability for the firm, subject to the terms and conditions of the agreement.

NOTE 13 PRIOR PERIOD ADJUSTMENTS

In 2015 the District has implemented the Governmental Accounting Standards Board (GASB) Statement No. 68 Accounting and financial Reporting for Pensions – an Amendment to GASB Statement no. 27. According to the District's pension administrators, the net effect of GASB 68 was \$51,201.
